**Accredited Gemmologist (C.I.G.)®**

Vancouver, B.C.  
Date: \_\_\_\_\_

Director of Education \_\_\_\_\_

### A.G. Diploma and C.I.G. Expert Certificates

The internationally recognized AG (C.I.G.)® diploma requires the completion of ten credit courses and a scientific paper. It is a demanding program covering all aspects of the work of a gemmologist and jewellery appraiser. The average completion time is 12 months; the program is eligible for a Canada Student loan in some provinces if completed within six months.

Graduates who wish to use the registered certification mark Accredited Gemmologist (C.I.G.)® and/or other C.I.G. "Expert" certificates for business purposes must apply for a user licence renewable every eight years. The annual license fee of \$ 100 includes a membership in C.I.G.'s Alumni Association "The Gem Connoisseur Club" and covers the cost of any upgrade course.

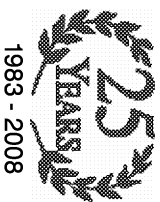

Tuition fees (which include the exam fee) and requirements for accreditation may change without notice. The administrative fee is \$ 100 for a second written exam, \$ 200 for a practical exam.

Contact the C.I.G. Director of Education at (604) 530-8569 or e-mail [wolf@cigemca.ca](mailto:wolf@cigemca.ca) for more information.

The Canadian Institute of Gemmology (C.I.G.) with headquarters in Vancouver, B.C. is a non-profit career training facility serving the jewellery industry and the general public since 1983. It is presently offering class-room instruction in Vancouver, Calgary, Edmonton and Winnipeg. Financial assistance may be available from employer/employee sponsored programs such as the federal Canadian Jobs Strategy (Skill investment, Job Entry/Re-Entry, Worker's Compensation Board, etc.); please contact your nearest Manpower office.

The C.I.G. is the largest career training institution for gemmologists and gem technologists in Canada. Its Accredited Gemmologist (C.I.G.)® designation is a registered certification mark and is recognized internationally as a symbol of excellence in gemmology.

We sell a wide range of books and testing equipment for gemmologists and appraisers.
